Telegraph Boys on a Strike. New York 6.—The American District Telegraph boys, in the down town office, struck, to-day, for an increase of wages. The strike caused great inconvenience to bankers, brokers, merchants and busi-ness men generally.

Hancock at Home.

New York, 6.—Hancock remained on Governor's Island ye-tarday, attending to the usual routine of his official duties and extending his accustomed cordial greeting to his numerous visitors. Among those calling an him, however, were no persons of political prominence.

The Herald's correspondent at London
interviewed Maryin Sims, yesterday, as
the whether he scot an encouraging dispatch to Dr. Tanner. He replied that he
did, because he believed Tanner deserved
encouragement.

Fort Robinson, 6.—The mail carrier, and others, arriving this evening from Rosebud, say that Turning Bear, one of Spotted Tail's head chiefs, with 300 or 400 young warriors, have started on the war path. Some say they have gone to fight the Rees on the Missouri; others think it a horse stealing raid.

Cincinnati, 5.—The democrats of the Tenth Ohio District, at Sandusky, to-day, nominated Mergan Shafer for Con-Atlanta, Ga., G — At the democratic state convention the ballot for governer was resumed to-day. The fifteenth ballet abows no change from that taken just before the adjournment last evening.

Teplitr, Bohemia, is completely submerged. The demage over a large tract of country is incalculable. A fearful panic prevails in the flooded districts, and numerous canualities have occurred.

The floods in Moriva, Galicia and Sileara are very serious. Railway traffic is interrupted, bridges carried away and the river overflowing its banks. Great loss is sustained in the crops and movable property.

A Republican Victory Sure.

New York, 6.—The Tribune says: If any republican doubted and feared before, he cannot doubt or fear now. The conference of the republican leaders held in this city, yesterday, was one of the most emphasic proofs ever given of the unity and energy of a great party. It was one of the most remarkable bedies of representative men that has ever gathered in this country in a presidential canvast. In this respect it was hardly inferior to a national convention only as candidates, not as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, not as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegates, whereas this notable gathering of republicans included at least two of the most conspicuous candidates, hot as delegated the reministence of the christian commission. General Hancock has been indicated Sherman and Logan, all of whom made most admirable impressions by their addresses and general bearing. Blaine made an ugly hole in Hancock's armor whon he pointed to the fact that the democratic candidate was the only great soldier he had ever heard of who seemed to be ashamed of his success in war, as the recent latter of acceptance showed, though without intending it. Blaine's words will make Hancock's ears tingle. Garfield has produced a splendid impression upon all who have mat him, of maniness, sincerity and directness, and at the same time of great power.

Garfield has produced a splendid impression upon all who have met him, of machiness, sincerity and directness, and at the same time of great power.

Taffy for Roscoc.

New York, 6.—The Times says Conkling was consplctuously absent from the republican conference, yesterday, though a undry active politicians, who are Conkling's men first and republicans after ward, actively participated in the proceedings. It is not to be presumed that the New York sensor hed aloof from the proceedings of yesterday because of any lack of sympathy with the principles which are at stake in the compaign, or of any lack of sympathy with the principles who have been selected to represent those principles. He has given ample that mony to his thorough appreciation of the importance of the one and the merits of the other. Conkling's avoidance of public arspeciation with the representative of the republican party, who assembled yesterday at the Fifth Avenue Hotel, was doubless due to his sincere desire for party harmony. The senator has somewhat of a talent for making enemies, a talent which he did not fail to improves a talent which he did not fail to improves a talent which he did not fail to improves a talent which he did not fail to improve a talent wh

New York, 6.—Dr. Tanner entered up in the last day's 'ast at noon. His pain is intense. A chemical analysis of the fluid from the stemeth, it is claimed, shows that the fast has been honestly conducted. Every hour he saiks around the enclosure without assistance, that the speciators may see him.
